

DANIIL VIDMICH
Communications Design Lead

mail@danyavidmich.com | +79660473615 | [linkedin.com/in/vidmichd](https://www.linkedin.com/in/vidmichd) | t.me/dvtel

Location: Saint Petersburg, Russia

Multidisciplinary Design Lead with 8+ years of experience driving brand and product communication for large-scale tech platforms (Yandex, Badoo). Specialize in building scalable design systems, leading cross-functional teams, and integrating AI into creative production to increase speed, reduce costs, and improve campaign performance. Proven track record of delivering high-impact marketing and product launches for audiences of 30M+ users, combining brand strategy with measurable growth outcomes. Co-founded a dating app (Apt), leading product vision, go-to-market, and achieving early traction (6K+ MAU) in a competitive market.

Keywords: scalable brand systems, campaigns, end-to-end ownership, web, AI-driven creative production, design management

WORK EXPERIENCE

Yandex Practicum

Communication Design Lead (03/25 — Present)
Leading CIS online tech bootcamp (100K+ graduates)

- Led the launch of Yandex Practicum Pro branding (visual system, brandbook, AI-driven imagery), delivering 154% of planned reach, 206% of traffic, and +652% search lift
- Built and deployed an AI-powered design pipeline (Cursor, Krea, Recraft): automated asset generation and resizing via custom AI tooling, reduced turnaround time from 3 days to 10 minutes, and cut vendor costs by ~\$2K/month
- Led and scaled the design function: planned sprints, prioritized workload, mentored mid-level designers, and drove cross-functional collaboration with editorial and marketing
- Owned communication design across key funnels — landing pages, campaigns, and merch (14 SKUs) — improving launch speed, brand consistency, and engagement (NPS, Brand Awareness, Trust)

Yandex Music

Communication Design Lead (10/22 — 01/24)
Russia's #1 music streaming service (70M+ MAU)

- Owned visual strategy and creative campaigns for artist-facing products (B2A), shaping brand positioning and communication with artists
- Relaunched BandLink analytics platform identity and communication system (SMM, CRM, events), strengthening consistency and product perception
- Led concept and end-to-end production of "Year in Review" (2022–2024): in-app experience, marketing campaigns, vendor management, and event integration
- Art-directed large-scale special projects and marketing launches (incl. "The World of Korol i Shut" and artist campaigns), delivering integrated visual systems across product, campaigns, and offline formats

Apt

Co-Founder & Art-Director (02'21 — 09'22)
Dating app for meeting through city events (Start-Up)

- Co-founded and art-directed Apt — a dating app for meeting through city events; defined product vision, MVP, and designed the full product (iOS/Android, design system, prototypes)
- Led a cross-functional team (Flutter developers, copy, marketing), owning creative strategy, product direction, and visual consistency
- Built brand and go-to-market: identity, landing pages (Readymag), SMM, and offline activations; secured partnerships with major cultural venues including VDNKh and Strelka Institute
- Drove early traction: 6K+ MAU in 6 months, 11K+ profiles (~75% women); featured in Inc. Russia, SRSLY, and Skillbox Media

Badoo

Senior Graphic Designer (08/20 — 02/21)
Global dating app (400M+ users, 60M+ MAU) | London, United Kingdom (Remote)

- Collaborated with a UK-based communications design team, presenting and defending concepts in English across cross-functional stakeholders
- Owned app communications for the Russian market: adapted global brand systems and led development of local campaigns
- Designed and art-directed the Badoo Hotline website (sexual health media project), reaching 375K+ unique users in the first two weeks post-launch
- Developed the visual concept for Badoo's first nationwide OOH campaign in Russia ("Be Yourself With Me") and led production of editorial visuals and animated content with external vendors

Yandex Go

Graphic Designer (11/18 — 07/20)
Super-app for ride-hailing & deliveries (30M+ MAU)

- Worked within MagicCamp, Yandex Go's internal creative studio, delivering visual communications for drivers across in-app, digital, and offline
- Designed physical brand environments, including taxi liveries and navigation systems at pick touchpoints-up points, ensuring consistency across urban spaces
- Art-directed photoshoots and campaigns for key launches (incl. Central Asia tariffs and Yandex Go rollout), collaborating with cross-regional teams
- Designed landing pages and campaign visuals for drivers' "Year in Review" and contributed to social initiatives ("Help is Nearby"), producing SMM and print assets for hospital
